A member of FAS Gov Suite™—an integrated asset management solution.

For maximum performance and scalability in fixed asset management, FAS Gov Asset Accounting *for SQL Server* provides advanced features and processing speed for larger government, school, and non-profit organizations needing help with GASB 34/35 requirements. FAS Gov Asset Accounting *for SQL Server* delivers the same dependable depreciation calculations, financial reports, and detailed asset management as FAS Gov Asset Accounting, but leverages the power of Microsoft® SQL Server to offer a scalable client/server architecture. If you're managing over 10,000 fixed assets, FAS Gov Asset Accounting *for SQL Server* is your organization's ideal solution.

Gain greater speed, flexibility, and scalability.

- Enhanced history tracking captures critical “before and after” fixed asset conditions
- Powerful, flexible reporting in as little as one-tenth the time it takes other systems
- Faster processing times with the SQL Server and Windows NT® Server infrastructures
- Scalability with client/server architecture and support for multiple databases
- Seamless integration with FAS Gov Asset Inventory™ *for SQL Server*

(over, please...)

FAS Gov Asset Accounting™ for SQL Server

| Asset ID | Description | Category | Value | Depreciation | Life |
|----------|--------------------------|-------------|---------|--------------|------|
