Complete control over your entire asset inventory at every step.

- Integrates seamlessly with FAS Asset Accounting™, allowing physical inventory data to be easily reconciled with existing asset data
- Conduct multiple inventories concurrently at various sites and reconcile data at one central location
- Supports both types of inventories—*Baseline* to add new assets, and *Dynamic* to verify any data on existing assets
- Track assets at remote locations, where inventories can be conducted by exchanging data via email attachments
- “Import/Export Helper” allows you to import data from, or export data to, the most popular spreadsheets and database applications
- Windows CE and Palm OS devices make it easy to perform inventories with less expensive bar code readers containing more memory

FAS Asset Inventory™

Hand-held devices make
conducting inventories easy.

- On-screen “Virtual Reader” lets you perform a test inventory—and even add assets—before you invest in hardware
- Fifty-one fully customizable fields with the ability to control data entry and notes, plus images to describe each asset record
- “Secondary Tag” field allows you to summarize assets by room location while conducting inventories
- “Groups,” “Templates,” “SmartLists,” and “Search-and-Replace” features provide powerful asset management tools and streamline inventory methodologies
- “Detail View” provides complete information including property type, class, acquisition date, supplier location, GL asset account, accumulated and expense account numbers, custodian, and more
- Customize “Group View” with drag-and-drop “freezeable” identifier columns (Display or hide columns to view precisely the information you want in the order you want to see it, all while saving your custom settings automatically)
- “Check-In/Check-Out” feature with a “Check-Out History” constantly monitors assets on the move
- Also available for Microsoft® SQL Server
- Fixed asset inventory labels available for purchase online at www.bestsoftware.com/FASLabels
